

Workshops

Should a minor repair be needed, our workshop will be available.

The workshop is located at the old DaSK hangar.

Opening hours: Daily from 9 o'clock to 12 o'clock

Our skilled handyman Johannes will be present at the workshop, and will be helpful in finding tools and materials.

Our blacksmith's workshop will also be open. Erik Jensen is on hand there to help with minor repairs.

Consumption of materials will be charged at the current price.
